

LOOS & CO. INC.

Our People. Our Community.

What We're Working For

"We don't want to be the biggest, we want to be the best - to be able to provide each individual customer, no matter how small, with the best in service and selection."

- A.W. "Gus" Loos

Who We Are

Founded in 1958, Loos & Co., Inc. (Loos and Company) evolved from a three-car garage business behind the home of owner A. W. "Gus" Loos and his wife Joan, to a 220,000 square foot facility located in picturesque Pomfret, Connecticut.

For over 60 years, Loos and Company has pioneered and thrived in the highly critical profession of cable and wire rope manufacturing for use where human lives are directly at stake. This valuable experience has taught us "the ropes" about what a difference dedication to success makes.

Today, Loos and Company manufactures a wide variety of wire, aircraft cable, and wire rope used in aerospace, military, and commercial applications, including - aircraft flight controls, elevators, fitness equipment, rigging, and scaffolding operations. We're looking for individuals who want to join our team and help us make a difference in our company, our community, and beyond.

Our People

As a leading employer in Eastern Connecticut, Loos and Company focuses on outcomes beyond profits and growth. We view our corporate responsibility as a commitment to the people and communities we serve. Each employee and their family factor into all our business decisions. We may be a company with global reach, but we are also a team that respects the needs and ambitions of our members.

Our Community

Working with local, regional, and global organizations provides Loos and Company with the opportunity to have an impact well beyond our footprint in rural New England. We partner with local schools and universities to provide research and development opportunities to students and professional alike, all with the goal of promoting innovation in the wire and wire rope industry. Our membership in global Trade Organizations and the influence we have on many regulatory committees allows us to bring knowledge from all over the world back to Eastern Connecticut and help grow our company through new products and new jobs to benefit our local economy.

Your Opportunity

What are you working for? You have an opportunity to make a difference in your community and around the world! Start your career in wire and wire rope and take pride in knowing your work matters to millions around the globe. Join a team that matters, in an industry that is changing the way the world travels, protects and heals itself. Become a part of the Loos and Company community and know what you're working for: Our People. Our Community. Our World.

What We're Working For

Today's Loos and Company manufactures products for the most critical of applications. If it has to work, we make the product that top companies choose. Join a team that has pioneered processes to meet the highest safety standards in markets that can accept nothing less than the best.

Medical

Help us continue to grow our Stainless Reputation™. Loos and Company does the work that matters to patients worldwide. From lifesaving vascular interventions to routine screening procedures, you will find Loos & Company products in the devices that physicians and surgeons trust most. You may not see our name, but know that our hard work and commitment means we're making a difference in operating and exam rooms every day.

Aerospace

Because quality and performance matter, Loos and Company works to produce the aircraft cables and flight controls that keep international fleets of commercial airplanes aloft. From Engines to Ailerons, no one has a larger inventory of stock cables for aircraft assemblies — *period*. Distribution channels throughout the world provide all major aircraft manufacturers and operators with access to our world class products. If it flies, we help make that happen.

Infrastructure

Loos and Company products are built to provide solutions, no matter where they are found. Civil Engineering projects from bridges to dams, highways and tunnels rely on our ability to provide the ropes and wires for projects that support our lifestyle and economy. When dams need to open, the gates' drums are filled with Loos and Company rope. When communication cables need to be installed, our guy wire is there.

National Defense

No other wire and wire rope manufacturer is qualified with more Tier One defense contractors than Loos & Company. We also hold qualifications to produce every Military Specification Aircraft Cable on MIL-DTL-83420, designed for aircraft use. Our cable provides critical support for the modern military, not only in our country, but among our global allies as well. When it comes to equipping our men and women in uniform, we take pride in serving those who serve our country and the world every day.

EMPLOYMENT AT LOOS AND COMPANY

Loos and Company is always seeking highly motivated employees who will help us maintain our position as the leading manufacturer of wire and cable. We are looking for people who expect the best from themselves and their company and in return Loos and Company offers an exciting and challenging work experience filled with many opportunities. Our commitment to excellence remains a fundamental value that has made our company great. In addition to competitive salaries, Loos and Company offers a great employee benefit package for its full-time employees.

If it sounds like a great place to work, it is!

Our benefits include:

- Paid Holidays
- Vacation Time
- Comprehensive Medical and Dental Insurance
